[Our Mission](#)

United Future is a modern centre party, focused on New Zealand's best interests. UnitedFuture was formed in November 2000 as a combination of United NZ and Future NZ, two centre-based political parties both born out of a desire to give New Zealanders a sensible, family-focussed alternative to the two major parties. We promote strong families and vibrant communities. We seek a fair, and open society, free from poverty, ignorance and prejudice, and based on innovation, self-reliance, justice and integrity in business and personal dealings.

We promote a sustainable environment, access to the outdoors and a competitive economy which encourages growth, prosperity, ownership and opportunity through market policies where possible, and government where necessary.

UnitedFuture is here to make sure commonsense is always at the heart of government. We pride ourselves on keeping governments honest, moderating extremes, and making sure the interests of families and communities are at the very centre of everything we do.

We want all New Zealanders, whatever their background, race or creed, to have the chance to enjoy everything that is good in our country.

New Zealand: The best place to live, work and raise a family.
